

Bobcat®

**COMPACT EXCAVATORS
E17 and E20**

EXPERIENCE

SMOOTH POWER & OPTIMUM COMFORT

One Tough Animal™

NEW GENERATION...

... of Bobcat 1-2 ton conventional swing model (E17) - together with the brand-new unique 2 ton Zero House Swing model (E20) - provide superior performance, operator comfort, safety and functional features.

E20 - Zero House Swing (ZHS)

For operators looking for compactness without sacrificing operator comfort and performance.

- 2019 kg operating weight with cab
- Digging depth: 2385 / 2565 mm
- Overall width: 1360 mm, with possibility to retract to 980 mm
- Heavy counterweight for unbeatable stability
- Cab and canopy selection
- Comfort package (optional)
 - Joystick-controlled boom swing and auxiliary for greater comfort and accuracy with selectable auxiliary modes
 - Autoshift travel motors to guarantee better traction and manoeuvrability
 - Higher-class seat
- 2nd auxiliary line circuit (optional)
- Hydraulic clamp (optional)

E20 - EXPECT THE UNEXPECTED

- ✓ Zero House Swing functionality (even with cab)
- ✓ Stability of best-in-class conventional machine
- ✓ Roomy and comfortable operator environment
- ✓ Easy access for daily maintenance and service

Key features:

- Robust and reliable excavator
- Excellent performance - both speed and force
- Smooth operation for precise job
- Unparalleled working range
- Best-in-class stability and visibility
- Unrivalled operator comfort and access to cab
- Advanced electronic control functions with new control panel
- Integrated upper-structure tie-down points

Excavators can be upgraded to any customer requirement with the following options:

- Long dipperstick for superior digging depth and reach
- Long blade for extra stability and easy dustpanability
- Keyless ignition
- Motion alarm
- Seat options, all with retractable seat belt
- Cab lights and MP3 radio
- Object handling certified
- Auxiliary line circuit extension on dipperstick
- Klac and Lehnhoff couplers

E17 - Conventional Tail Swing

This entry level "1.5 ton" excavator - designed for easy transportability.

- 1711 kg operating weight with canopy
- Digging depth: 2249 mm
- Overall width: 1360 mm, with possibility to retract to 980 mm
- Cab and canopy selection
- 2nd speed (optional)

COMFORT, VISIBILITY AND SAFETY

The E17 and E20 cabs offer an uncompromised operator environment - which, together with excellent visibility, provides the best possible operator comfort and safety.

Premium features for first-class comfort on any job:

- Unique-in-class joystick control of boom swing and auxiliary hydraulics with 3 selectable auxiliary modes to match any attachments
- Fully adjustable cab heater unit
- Seat options for optimal operator preference
- All parameters checked in one view with new control panel (auto engine shutdown, auto cab lights switch-off, audible alarm in case of malfunction)
- Easy-to-operate gas spring-assisted light and rigid front window
- Keyless ignition for optimal safety
- Battery kill switch for storage and to prevent theft
- Automatic slew brake for safe parking and transportation

Display:

- | | |
|--|--|
| 1. Engine hours, job hours, service codes, voltage, maintenance clock, countdown for glow plugs, RPM | 5. Engine warning |
| 2. General warning | 6. Lights |
| 3. Engine coolant temp | 7. Fuel gauge and alarm |
| 4. Two speeds | 8. Seat belt |
| | 9. Hydraulic warning |
| | 10. Info button - Display menu |
| | 11. Aux hydraulics button - Thumb aux control (optional) |

These machines are built around the operator - providing optimal ergonomics for operators of all sizes. The new cab design features large windows and narrow pillars to maximise all-around visibility.

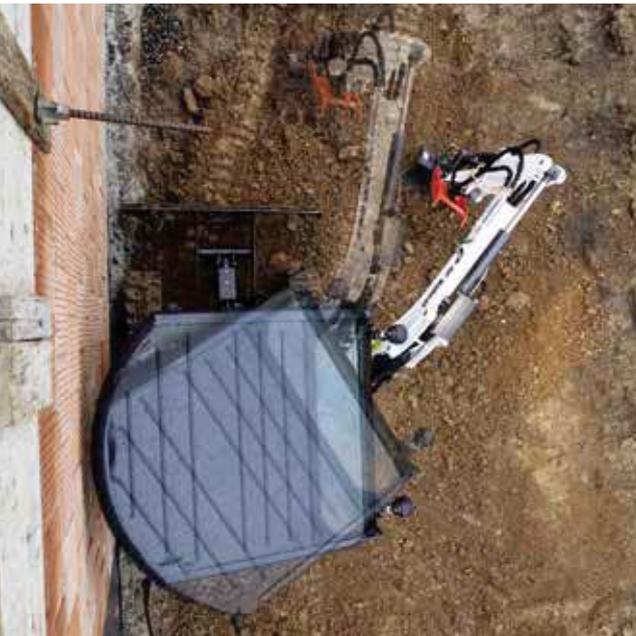

Superior comfort for hours on end

- Large and spacious cab
- Convenient space for the feet with flat floor for easy cleaning
- Easy cab access
- Ergonomic pedals and easy access to all controls
- Floor panels are easy to remove
- Storage box
- Cup holders

SMOOTH PERFORMANCE AND COMPACTNESS

Bobcat's unique E17 and E20 hydraulic systems make the best possible use of the engine power. Fast cycle times, combined with smooth control of class-leading breakout forces, provide maximum productivity. Boom and dipperstick cylinder cushioning - unique in their class - enhance overall smoothness.

The Zero House Swing (ZHS) concept enhances Zero Tail Swing (ZTS) functionality by further protecting the front upper structure corners turning within the swing circle. ZHS functionality provides 320° of free rotation while working close to any object.

The retractable undercarriage (standard equipment for both models) enables you to enter buildings through the doors. Side-shifted work group provides excellent working visibility. New easy-to-operate durable blade extensions. Left-hand side-mounted offset cylinder to minimise chance of damaging surrounding objects.

Lift more, lift higher

The superior dumping height makes loading trucks easy, while the reach at ground level means you don't need to reposition as often when digging.

With enhanced stability and lifting capacity, combined with best-in-class proportional auxiliary flow, the E17 and E20 offer you the highest versatility in operating a wide range of attachments.

Transportability

Both models fit easily on a conventional trailer. Easier transportability with new integrated upper structure tie-down points.

Dozer blade length designed for customers that prefer compactness for working in reduced spaces.

Dozer blades provide excellent departure angles and higher profile for better dozing performance.

QUALITY – RELIABILITY – DURABILITY

Tough materials, tested design

Using highly durable materials makes the Bobcat E17 and E20 models hard-wearing and robust. The design features are tested under extreme conditions - and the heavy steel gauge tailgate ensures extra durability and peace of mind while working.

Reliability added in every feature:

- Rear tailgates protected by casted counterweights
- Metal covers can be opened or bolted on
- 2-piece blade cylinder hoses
- Wrenchless hydraulic hose technology helps prevent leakage
- Proven boom and dipperstick design
- Top-mounted boom cylinder
- Oversized cylinders for long life
- New paint and surface treatment process
- Reinforced expandable undercarriage to raise rigidity

MAINTENANCE AND SERVICE

Daily maintenance and service points are conveniently located for easy and immediate access.

Side-by-side coolers for easy cleaning. Diagnostics are easy thanks to display error codes on control panel and service tool connection. The E20 tailgate provides great access to all daily maintenance components and service points.

E17 — SPECIFICATIONS

E17

WEIGHTS

Operating weight with canopy	1711 kg
Operating weight with cab	1807 kg
Additional weight for internal counterweight	-
Ground pressure	29.4 kPa

ENGINE

Make / model	Kubota / D722-E2B-BCZ-7
Fuel/Cooling	BCZ-7 Diesel/Liquid
Number of cylinders	3
Displacement	0.7 L
Maximum NET power (ISO 9249)	9.9 kW
Maximum NET torque (ISO 9249)	42.3 Nm

PERFORMANCE

Digging force, standard dipperstick (ISO 6015)	9108 N
Digging force, long dipperstick (ISO 6015)	-
Digging force, bucket (ISO 6015)	16177 N
Drawbar pull	14334 N
Travel speed, low range	2.0 km/h
Travel speed, high range	3.2 km/h

HYDRAULIC SYSTEM

Pump type	Triple gear pump
Pump capacity	32.5 L/min
Pump 1 capacity at 2500 RPM	10.0 L/min
Pump 2 and 3 capacity at 2500 RPM	11.3 L/min
Auxiliary flow	32.5 L/min
Auxiliary relief	227.0 bar

SLEW SYSTEM

Boom swing, left	80 °
Boom swing, right	60 °
Slew rate	8.7 RPM

FLUID CAPACITIES

Cooling system	3.3 L
Engine lubrication plus oil filter	3.3 L
Fuel reservoir	19.0 L
Hydraulic system	17.0 L

ENVIRONMENTAL

Noise level LpA (EU Directive 2006/42/EC)	79 dB(A)
Noise level LWA (EU Directive 2000/14/EC)	93 dB(A)
Whole body vibration (ISO 2631-1)	0.74 ms ⁻²
Hand-arm vibration (ISO 5349-1)	1.42 ms ⁻²
Hand-arm vibration (ISO 5349-1) Uncertainty	0.37 ms ⁻²

STANDARD FEATURES

TOPS/ROPS/FOPS* canopy	Hydraulic and Travel Control Lockouts
Hydraulically retractable undercarriage from 1360 to 980 mm	Retractable seat belt
Exposed counterweight with 4 mm steel tailgate	Upperstructure four point tie down
980 mm dozer blade with two 190 mm blade extensions	Engine with auto shutdown
230 mm rubber track	Full fuel warning alarm
Double acting auxiliary hydraulics	Work light
Control console locks	Battery kill switch
Horn	Storage compartment Cupholders
Hydraulic joystick controls	Warranty: 12 months or 2000 hours
Foldable & ergonomic pedals	

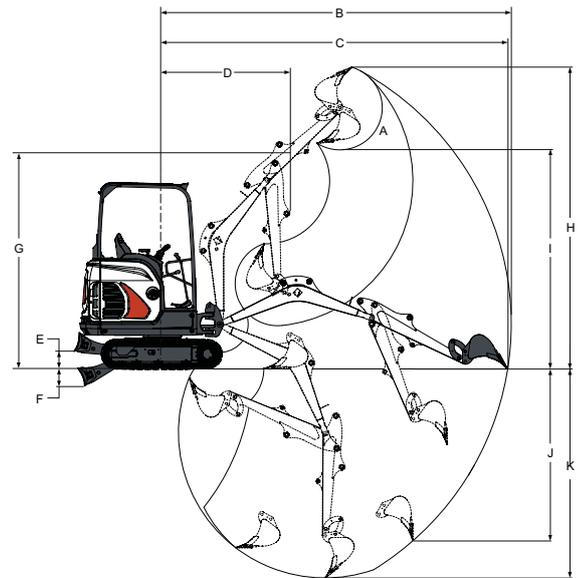

* (1) Tip Over Protective Structure (TOPS) – Meets requirements of ISO 12117. (2) Roll Over Protective Structure (ROPS) – Meets requirements of ISO 3471. (3) Falling Object Protective Structure (FOPS) – Meets requirements of ISO 3449.

OPTIONS

TOPS/ROPS cab with heater	Keyless start
AM/FM MP3 stereo radio	Travel motion alarm
Cab/canopy light kit	Two-speed travel (E17)
	Deluxe textile suspension seat (Cab) (E17)
	Auxiliary hydraulic line on dipperstick
	Auxiliary quick couplers (E17)
	Boom Load Holding Valve
	Object handling certified

E17 E20 — LIFT CAPACITIES

Picking up and placing heavy items is easy with both models. E20 stability is comparable to that of best-in-class conventional machines on the market. In addition, these machines now come with an optional certified 'object handling device', which consists of: boom load holding valve, dipperstick load holding valve, hooking device and overload warning device.
